Sound Absorbing Foam Glass Board

1, Sound Absorbing Foam Glass Board is composed of a large number of uniform bubble structures, with more than 50% open air bubbles. It is a new type of non-toxic, tasteless, environmentally friendly sound-absorbing material, non burning, non hygroscopic, not aging, not easily weathered, not afraid of rodents and insects, corrosion-resistant. The product is a kind of silencer, which can keep people away from noise and in a calm environment after a hard day. Products can be made into various colors, rich in decorative effect, beautiful, comfortable.

2, Features:

- 1) Sound Absorbing Foam Glass Board is porous structure, with remarkable sound absorption and sound insulation effect
- 2) Non toxic and tasteless, no harmful substances released, environment optimized
- 3) Good flame retardant, non combustible
- 4) Good corrosion resistance, not afraid of insect bites
- 5) Not easily weathered, not aging, durable

3, Application: conference hall, recording room, subway, waiting hall, indoor, shopping mall and other environments requiring sound insulation

4,Main performance parameters of product

ITEM	UNIT	TECHNICAL INDEX
B.D	kg/m3	170-220
Open air bubbles	%	>50
Sound absorption coefficient		0.21-0.60
Compressive strength	%	90

ZIBO JINGGAN REFRACTORY IMPORT AND EXPORT CO.,LTD

Combustibility	Mpa	≥ 0.7
Flammability		Flame retardant, nonflammable
Corrosion resistance		Acid resistant (except hydrofluoric acid), not easily weathered, not aging

6. Good feedback of product use effect, the products have been exported to South Korea, Russia, Pakistan

7. We are a professional supplier, who can provide customers with free product technology, use and other issues

Do you want to find a professional supplier of refractory products?

Do you want to find a professional supplier of graphite electrodes?

Do you want to find a stable and credible supplier?

Then let's contact with jinggan company
